### **EPI-NO AND WHERE TO GET IT**

#### **Some of our patients have gotten it from Canada the following way:**

- 1) Register for a Canadian address at <http://www.canadianaddress.ca/>; it costs ~ \$20 to register. They will email you a Canadian address after you submit payment.
- 2) Order Epi-No at Bescot Healthcare Canada and have them ship to your Canadian address:  
<http://bescot.myshopify.com/products/epi-no-delphine-plus>
- 3) Once the Epi-No arrives at the Canadian address, they will email you a few shipping options to redirect the package to you in the USA. They will charge you a service fee plus the actual shipping cost.

From the time you register for a Canadian address and finally get the Epi-No delivered to your door step, it is usually roughly 1-2 weeks.
